### **Hot Hair Tip**

Are you a Nicole or a Jen??? Your colorist loves when you bring in pictures of the hair color you desire--but do you have a skin tone like Nicole Kidman and are coveting Jennifer Aniston's color? This golden tone can look orange on ivory or pink toned skin. Or are you are you a golden or yellow toned lovely who admires burnished copper or strawberry hair? The natural amount of warmth (or red) in your hair may put your color palette out of balance.

When choosing a hair color, you can easily avoid disastrous results by setting reasonable expectations and selecting photos of people who share your like skin and hair tones. Your colorist will be able to determine the perfect hues that will flatter rather than flop.

## Hot Hair Product

Sulfate free shampoos--used to be the rarity--Deva was the first. Now everyone from L'oreal to Fekkai carry them. My clients with dry scalp and hair (everyone has that this time of year) love WEN.....Yes, its on QVC but everyone loves it!!!!

The WEN Cleansing Conditioner is a revolutionary new concept in cleansing your hair that has Hollywood buzzing! It's special because it cleanses hair thoroughly but without lathering and all the harsh ingredients that may be found in ordinary shampoos — it is designed so it won't strip your hair and scalp of their natural oils. Your hair is left with sheen, moisture, manageability and better color retention.

## Hair I'm Lovin' NOW

How HOT are Gisele and Kate in the new Versace ad campaign???

Kate Moss makes a bold statement with a perfect sun bleached blonde look while Gisele opts for a beachy St. Tropez sun kissed look courtesy of the French hair painting technique called Balayage.

For more information on this technique, visit my web site [www.colorbymia.com](http://www.colorbymia.com) and go to the "Services" page.

Make an appointment TODAY to talk about how you can get these sassy looks this season!

## Final thoughts...

I'd love to get your thoughts on ways I could improve my newsletter and web site. Send me an email at: [mia@colorbymia.com](mailto:mia@colorbymia.com) and share your ideas!

Thanks so much for being a part of my world over the years. Stay tuned... More to come!
